

SKIING IN AOTEAROA NEW ZEALAND

Aotearoa New Zealand has developed a deserved reputation as an international skiing destination, with snow experiences to suit every level of skier or snowboarder.

WHY CHOOSE A NEW ZEALAND SKI HOLIDAY?

The New Zealand ski season runs from June to October – great for visitors from the northern hemisphere who want to escape the heat of summer.

New Zealand ski fields tend to be less crowded than those in the northern hemisphere, meaning queues are comparatively short. There are plenty of wide open bowls and gentle slopes for first-time skiers. And for the more adventurous, Aotearoa offers spectacular off-piste skiing and an exciting range of heli-skiing opportunities.

Ski fields are located close to major towns and cities. So if skiers want to enjoy a day off the slopes there are plenty of attractions and activities, such as cycling, boat cruises and cultural experiences, all within easy reach.

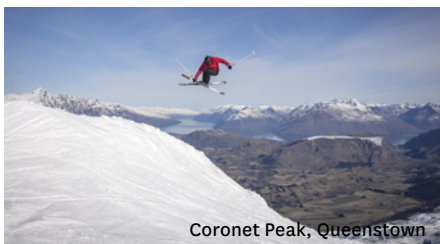

PLANNING A NEW ZEALAND SKI HOLIDAY

Pre-booking flights, accommodation, transport and activities is recommended. Accommodation options include luxury lodges, hotels, apartments, motels, backpackers and hostels.

If visitors don't have their own gear or prefer not to bring it with them, quality skis, snowboards, clothing and accessories are easy to hire.

Transport to and from the maunga (mountain) is simple with regular shuttles available from main centres to major ski fields. Visitors who plan on hiring a rental vehicle must ensure they are familiar with all of New Zealand's unique road rules and driving conditions, and carry snow chains at all times.
